ugmentation, granular media, heat exchangers, heat transfer, laminar flow, suspensions, Ahuja (A.S.), 4196

nular flow, augmentation, evaporation, extended surfaces, heat transfer, stratified flow, Kimura (H.), ito (M.), 4200

strained flow, famine in.), not im.), 2000 laser doppler velocimeters, particle fluid flow, pneumatic transport, two phase flow, Tsuji (Y.), Morikawa (Y.), 5037 boundary layer (control), corrosion, fluid injection, Yeung (W.C.-C.), Holt

(M.), 5051

lary layer, ducts (curved), experimental results, friction (skin), Tabot (L.), Wong (S.J.), 5054

(L.), Wong (S.J.), 2054 augmentation, convection (forced), heat transfer, laminar flow, polymers, solutions (material), swirl flow, viscous effects, Navmeev (Yu.G.), 5167 conduction (heat), heat addition, unsteady flow, Krishan (B.), 5184 boundary layer (turbulent), channel flow, relaminarization, survey, transition flow, Sreenivasan (K.R.), 5882 electric effects, electrical properties, theory, turbulence (transport), Abedian

(B.), Sonin (A.A.), 5928 circulation, condensation, multicomponent flow, tube bundles, Calia (C.), Grif-

fith (P.), 5995

freezing, solidification, turbulent flow, Epstein (M.), Cheung (F.B.), 6010 convection (forced), curved surfaces, laminar flow, pulsatile flow, Rabadi (N.J.), Chow (J.C.F.), (et al.), 6013

diffusion, heat transfer, nusselt number, Galin (N.M.), Groshev (A.I.), (et al.), 6014

drag, entrance region, heat transfer, turbulent flow, viscoelastic fluids, Kweck (E.Y.), Hartnett (J.P.), (et al.), 2007 heat transfer, liquid metals, turbulent flow, Suzuki (K.), 2044 heat transfer, mathematical models, pipelines, transforms, Odishariya (G.E.),

Odishariya (O.E.), 6102

boundary layer, developing flow, entrance region, laminar flow, Matras (Z.), Stachura (J.), 6885 hydrodynamic stability, perturbations, Patera (A.T.), Orszag (S.A.), 6827 condensation, condensers, two phase flow, void fraction, Tandon (T.N.),

Varma (H.K.), (et al.), 7025

blood flow, pulsatile flow, response, viscoelastic waves, Rieutord (E.), 7285 friction (skin), liquid gas mixture, pressure drop, Antipev (V.N.), Fisher (V.A.),

Nochubei (A.A.), Ryadno (A.A.), 7854
cellular flow, conduction (heat), conductivity, diffusion, duct flow, laminar flow, Lungu (E.M.), Moffatt (H.K.), 7857
axial flow, friction (skin), heat transfer, rotating fluids, Trifunovic (R.), 7865
boiling, critical heat flux, heat addition, nonuniform flow, saturation, Bonn (W.), lwicki (J.), (et al.), 7868

boiling, critical heat flux, empirical methods, freon-12, water, Green (W.J.), 7874

drag reduction, polymers, turbulence (structure), turbulent flow, Mccomb (W.D.), Rabie (L.H.), 8608

pulsatile flow, transition, turbulent flow, Ohmi (M.), Iguchi (M.), (et al.), 8614 critical flow, filling flow, free boundary, Krishnakumar (C.K.), Fields (S.F. mar (C.K.), Fields (S.F.),

heat exchangers, pulsatile flow, Fallon (M.), 8700 eddy diffusivity, heat addition, liquid metals, molecular diffusion, nusselt number, turbulent flow, Loe (S.-L.), 8716

constitutive relations, friction (internal), refilling, rewetting, thermal instabil-ity, two component flow, Chan (A.M.C.), Banerjee (S.), 8723 boiling, critical heat flux, helically coiled tubes, Jensen (M.K.), Bergles (A.E.),

inlet flow, mixed flow, Burlet (V.D.), 8765 computer aided design, failure, fuel elements, heat transfer, nuclear reactors, Kedziur (F.), 8840

chemical reactions, convection (forced), damkohler number, photochemistry, radiant interchange, solar energy, Duprat (F.), Chevalier (J.L.), 8961 compressible flow, experimental results, orifices, Torizumi (Y.), Hirayama (N.),

(et al.), 9553

bifurcation, dynamic response, laminar flow, Suu (T.), Fuji (K.), 9691 high temperature, turbulent flow, velocity profiles, Van De Sande (E.), Sloof (R.), (et al.), 9595

ion, heat transfer, laminar flow, variable fluid properties, Collins (M.W.), Keynejad (M.), 9774 annular flow, critical heat flux, two phase flow, Levy (S.), Healzer (J.M.), (et

al.), 9733

ics, film boiling, phase changes, slug flow, Kurilenko (A.A.), Dymenko (S.R.), (et al.), 9736

- conduction (heat), convection (forced), freezing, transient effects, Sadoghi-pour (M.S.), Ozisik (M.N.), (et al.), 9755
- hydraulic aspute pipelines, hydrodynamics, pipelines, Liu (H.), 10398 critical speed, pipelines, pneumatic transport, pressure change, two phase flow, Tsuji (Y.), Morikawa (Y.), 10539 bursting, non newtonian flow, similarity methods, turbulent flow, Kawase (Y.), Ulbrecht (J.J.), 10548

- crossflow, jets, measurements, turbulent flow, Andreopoulos (J.), 10581 convection (forced), entrance region, heat addition, unsteady flow, Lin (T.F.), Hawks (K.H.), (et al.), 10704
